

OUTHER PANTHEONS: PEREIRA IRVING PAUL

It waits in a sea of blackness
Where No stars dot the horizon
Where No light touches its brow

It moves in occult orbits
Hidden from eyes in the sky
Unnamed in the books of star cults

In its heart hums a signal
A pulsing across eons
A black hole waiting for contact.

Secret and patient, building its time
It turns but hides its face

Listen,

To the sphere that has no sun

listen

to the throb of its nebula
Sense the pulsating absence
The star that's there but never there.

Wait and listen.
Wait and see.

Ages will come and go.

..

A candle flickers
in a house on earth
A room turns, mimicking the planet
A man stands in a circle
The sacred space is sealed
With God names at the four quarters
Nebulore, Al FI, Daeken, Ardenai
Walls are painted black.
symbols, painted gold
Signs of XENO zodiac
Alive with alien power

::
The man stands before obsidian
Ancient mirrors of Egypt
Doorway to black directions
Portal, void, contact.

The man breathes and believes
A snake curls up his spine
There is fire in his mind
There are sounds in his chest
INVOKA
O LEH HEY
TIANA
XOL!

The black hole opens its eyes
An energy stirs and awakens
A planet turns inside.

Listen.

He begins the rite of the enterer

Look, watch, Seer.

He presses his palms to his eyes
He parts the veil of nothing
He calls the god of strangers
He swallows the coin of arda

Look, watch, observe.

A candle burns in a house on earth
And in its room I wait.
I've dreamt of the man from other worlds
He tells me I am him.
My mirror is small but my will is strong
I invoke the god of strangers
I sit in the chair of Opus
And I meet the man from elsewhere

In him, I return to Orion
With him, I am of spectrum
Through him I explore the stellar
We drink the liquor of sothis
The holy blood of Light
We drink and we are transformed.

I am Feathered, deity, dragon
A carp In cosmic waters
He is a figure, appearing in nuclear
A Pale and faceless martyr

I am the space between oceans
We are Patterns in the mind of Sirius
Hidden in the Mother of Isis
Daughters to the sons of Set

He is above

Hooded, silent and dreamless

As I am below

Winged and radiant and faceless

We are Star born and rising

A construct of Kronos and chaos

Combined in the signs of XENO

Touched by the hand of xol.

..

We wait in a sea of blackness
no stars hang Along our horizons
We are the light that comes from no sun.

A signal hums in our hearts
Patient and waiting, watching and calling

A life blinks in an age of eons
Our names are carved in granite maps
Star priests learn our signs.

The planet turns
The black hole turns
We are Man and myth as one
Planet and gods corresponding.

Ages will come and go.

Wait and listen, watch and see.

Humans will stand in darkened rooms
Speaking of dreams, of visions and sounds

They will speak the secret names
They will call upon the black hole gods
